If you are uncertain about your right to copy any material, you should contact your legal advisor.

Click **Agree** to continue with the installation

To continue installing the software, you must agree to the terms of the software license agreement.

Click **Agree** to continue or click **Disagree** to cancel the installation.
Select the destination by single clicking on your hard drive, and then press Continue.

Select a Destination

Select a destination volume to install the Optional Installs software.

Macintosh HD
74.4GB (61.6GB Free)

You have chosen to install this software on the volume "Macintosh HD."
Click on **Applications** to expand the choices. Check off **X11**. Press **Install** to install.

If you are prompted for your password, please enter it and then the install will begin. If you are unsure of your password, leave it blank and press enter. Please be patient, as the install will take some time.
When the install if complete, press Close.
Now you can install **Xcode Tools**.
Go back to the Mac OS X Install Disc 1 screen and double click on Xcode Tools

![Xcode Tools](image)

Double click on **XcodeTools.mpkg** to begin the install of Xcode Tools

![XcodeTools.mpkg](image)

Press **Continue** to begin the installer.

![Welcome to the Xcode Tools Installer](image)

Welcome to the Xcode Tools Installation Program. You will be guided through the steps necessary to install Xcode Tools.
If you are presented with a window similar to below, press **Continue**.

This package contains a program that determines if the software can be installed. Are you sure you want to continue?

If you're not sure about the source of this package, click Cancel to prevent it from running the program and installing the software.

[Image of a window with 'Cancel' and 'Continue' buttons]
Press **Continue** accept the agreement

Click **Agree** to continue with the installation.
Select the destination by single clicking on your hard drive, and then press Continue.

Select a Destination

Select a destination volume to install the Xcode Tools software.

Macintosh HD
74.4GB (61.5GB Free)

Installing this software requires 1.5GB of space.

You have chosen to install this software on the volume "Macintosh HD."
Look for this button in the window below.

Be sure to select **Customize** from the menu at the bottom listed below.
**Unclick Developer Documentation.** There is no need to install that, as it wastes over 700MBs of disk space. Press **Install** when you are ready to begin.
