General Library Hours

Mon	Tue	Wed	Thu	Fri	Sat	Sun
12/31	01/01	01/02	01/03	01/04	01/05	01/06
Closed	Closed	9:00am	9:00am	9:00am	Closed	Closed
Closed	Closed	6:00pm	6:00pm	5:00pm	Closed	Closed

Note: Click [here](#) for important exceptions to the general hours.

Need books or ebooks?

- 1) Search the Brooklyn College Library [Catalog](#).
- 2) Search the [CUNY-wide Catalog](#) (in the catalog, Select [All CUNY Libraries](#)). Use the catalog's book request feature to have books from other CUNY libraries sent to this library.
- 3) If nobody in CUNY has the book you want, request it through [Interlibrary Loan](#).

Need articles?

Try searching one or more of these databases (all are accessible through the [Databases](#) page):

- **Scopus:** Indexes and abstracts over 14,000 journals in the sciences and social sciences, including computer science. Has an exceptionally user-friendly interface. Does not include full text of articles, but full text is often only a click of the "FindIt" button away.

- **ACM Digital Library:** Provides access to the full text of all ACM journals, newsletters, and proceedings. Covers many areas of computer science, including algorithms, interfaces, programming languages, graphics, and networks.
- **IEEE Computer Society Digital Library:** Provides access to the full text of 23 IEEE magazines and journals and over 1,700 IEEE conference proceedings.
- **Computing Reviews:** Provides critical reviews of publications of note in computing.
- **Applied Science & Technology Index:** Indexes articles from the applied sciences, including information technology, computer software, artificial intelligence, neural networks, and many other topics. Does not include full text of articles, but full text is often only a click of the "FindIt" button away.
- **Gartner:** Includes research and analysis of the global information technology industry.
- **Google Scholar:** Free tool that searches the Web for articles, books, and other scholarly materials in many different disciplines, including computer science. Searches return an assortment of citations, abstracts, and links to full text. For results that indicate which articles are available electronically through the BC Library, access Google Scholar through the Library's Databases page or Computer and Information Science subject guide.

For a more comprehensive list of computer and information science resources, go to:
[Library Homepage](#) ➔ [Resources by Subject](#) ➔ [Computer & Information Science](#)

Need a specific journal?

- 1) Search the [E-Journals Finder](#) to see if we have it electronically.
 - 2) Search the [Catalog](#) (in the catalog, click [Journal Title Search](#)) to see if we have it in print.
 - 3) If you need an article from a journal we don't have, request it through [Interlibrary Loan](#).
-

Want to work from home?

You can, and it's easy! All you need is your Brooklyn College email address and password. For more information, go to the library homepage and click [Search from Off-Campus](#).

Questions?

Have questions? There are a variety of ways to get answers:

- Check our online [FAQ](#).
- Visit our [Research & Writing Help](#) page.
- Use the online [Ask-A-Librarian](#) service (email or chat).
- Visit the [Reference Desk](#).
- Contact the **Computer & Information Science Librarian:**
