Disclaimer: This is only a guideline, percentages and rules may change during the semester.

Final grade will be composed of the following components:

- \( \approx 30\% - 70\% \) final exam.
- \( \approx 20\% - 30\% \) mid-term exam.
- \( \approx 10\% - 10\% \) assignments.
- \( \approx 0\% - 30\% \) quizzes.

General rule: only grades greater than the final exam grade count.

General formula: \( \text{final exam\%} = 100 - \text{midterm\%} - \text{assignments\%} - \text{quizzes\%} \)

Answer a question in an exam, a quiz, or in an assignment:
- Only within the given space for the answer, using a readable text with normal size font.
- You get 20\% of the credit if you leave the answer blank and no credit for a wrong answer.

Preparing assignments:
- Type the answers or use a readable hand writing.
- Do the assignments alone if you can.
- Get help if necessary.
- You must understand everything you write.
