Watch the four BBC episodes about the story of Maths by Marcus du Sautoy.

General description:

Episode titles and descriptions:

- Episode 1 - The Language of the Universe: Marcus du Sautoy looks at how fundamental mathematics is to our lives, and then he explores the mathematics of ancient Egypt, Mesopotamia, and Greece.

- Episode 2 - The Genius of the East: This episode focuses on the development of mathematics in the East and the spread of Eastern Knowledge to the West through Italy.

- Episode 3 - The Frontiers of Space: This episode focuses on the development of mathematical ideas in Europe, especially around the 16th - 19th centuries.

- Episode 4 - To Infinity and Beyond: In this episode, Marcus du Sautoy looks at some of the twenty-three great unsolved problems that were posed by David Hilbert and confronted mathematicians in the 20th century.
