Tell Me About Yourself

Amotz Bar-Noy

Fall 2023, Tuesdays and Thursdays
TR11: 11:00am-12:15pm    TR2: 2:15pm-3:30pm
http://www.sci.brooklyn.cuny.edu/~amotz/discretemath.html

How and when to submit this document: By Sunday Aug 27, 2023, each student should send me an email with a pdf-document as an attachment that provides the information requested below. The course’s email is

TR11: amotz.CUNY+2210F23TR11@gmail.com
TR2:  amotz.CUNY+2210F23TR2@gmail.com

1. Provide the following information about yourself:
   Full name and preferred nickname: ..........................................................
   Id Number: ......................................................................................
   Email: ............................................................................................
   Section: ..........................................................................................

2. How fluent are you with English in writing, reading, listening, and speaking? Is English your native language?

3. Tell me about any issues you may have with in-person learning.

4. Tell me about any issues you may have with on-line learning.
5. Provide the details about the prerequisite classes you had taken including (i) When did you take them? (ii) In which institute and department? (iii) What were the names of the instructors? (iv) What were your grades?
   (a) Computer and Information Science 1.10 or 1.20 or 1110 [1.5] or 1115 or 1170 or 1215.

   (b) Mathematics 1011 [2.9] or 1012 or 2.92 or assignment to Mathematics 3.20, 1201 [3.3], or 4.10 by the Department of Mathematics.

6. If it is not the first time you take the Discrete Structures course (2210), list all the semesters in which you took this class with your grades (including W if you withdrew). Then explain why you take this class again.

7. How strong is your mathematical background? Specify your strengths and weaknesses.

8. Rate your programming skills. Which programming languages have you mastered?
9. Tell me anything about yourself you think I should know.
