Disclaimer: This is only a guideline, percentages and rules may change during the semester.

Final grade will be composed of the following components:

- ≈ 20% – 70% final exam.
- ≈ 20% – 30% mid-term exam.
- ≈ 10% – 10% assignments.
- ≈ 0% – 20% quizzes.
- ≈ 0% – 20% programming project.

General rule: only grades greater than the final exam grade count.

General formula: final exam\%= 100 - midterm\%- assignments\%- quizzes\%- project\%.

Answer a question in an exam, a quiz, or in an assignment:

- Only within the given space for the answer, using a readable text with normal size font.
- You get 20% of the credit if you leave the answer blank and no credit for a wrong answer.

Preparing assignments:

- Type the answers or use a readable hand writing.
- Do the assignments alone if you can.
- Get help if necessary.
- You must understand everything you write.

Programming projects:

- Must be coordinated with and approved by the instructor.
- The project is offered only to skilled programmers who may use any programming language.
- Can be done individually or in pairs.
- The deadline is end of April 2020, about two weeks before the final exam.
- The grade is always 100.
- The quality and the scope of the project would determine its allocated percentage of the final grade.
