

CIS 5.2 Assignment 2

**due Feb. 18 or 23, 2009
(the class period after we finish WD Chapter 2)**

Do Lab 2 on pages 140-41 of the textbook. It asks you to write a term paper with a footnote and bibliography. The term paper is provided for you to type in and format following the instructions in steps 1-6.

Step 6 asks you to hand-write some information above the title of the research paper. Do not do that; instead, create a cover sheet and put that information on the cover sheet.

Submit the paper, complete with bibliography and a cover sheet that contains the following information: your name, section number, and the word count of the entire paper (including the footnotes). Submit it by email by class time on the day it is due; make sure the subject line contains Assn 2 and your section number (12A or 2A). Also submit a printed copy in class.
