

Do Lab 1 on page AC 71. Note that it says to go to the Web site scsite.com and get the data file, but I have copied the data file for you below, to save you the effort.

As the exercise says, you are to create a database to store the information below to manage your business of buying and selling used furnishings for student dorm rooms. Here is more detailed information on what to do.

1. Set up two tables, one to hold information on the items, and one to hold information on the sellers.
2. Name the tables appropriately, and include in each table ONLY the information necessary.
3. Figure out which is the ONE table and which is the MANY table in the one-to-many relationship. (To figure this out, ask yourself these questions: "Aare there many sellers for each one item?" or "Are there many items for each one seller?") The MANY table should include only one piece of information per record from the ONE table.
4. Name the fields appropriately, and set Currency data type for all monetary amounts.
5. Enter the appropriate data into each table.
6. Select the appropriate unique identifier as the primary key in each table and set that up as the primary key.
7. Check all spelling.
8. Create two reports :
 - The first report, titled Items for Sale, will consist of the Item number, description, quantity, price, and condition. Use the Report Wizard. Create the table in Tabular layout, Portrait. Select your own style from the Styles menu. Save the report.
9. The second report, titled Our Valued Sellers, will consist of each seller's first name, followed by last name, and phone number. Create the report using the Report Wizard. Create the table in Tabular layout, Portrait. Select your own style from the Styles menu. Print both tables and both reports, and email the entire database as a unit (it will have extension .accdb).

Item Number	Description	Price	Quantity	Date Posted	Condition	Seller Code	Last Name	First Name	Phone Number
1663	Metal Chairs	\$5	4	06/01/2007	Excellent	ER	Edwards	Randy	517-555-3853
1683	Computer Desk	\$25	1	06/02/2007	Good	HI	Herts	Irene	317-555-4747
