Review for the Final (CISC 3320)

Virtual Memory (Chapter 9)

- Virtual memory
- Demand paging
- Page represents algorithms.
- Trashing
- Working-set model

Chapter 10-11)

- File concept
- Access methods
- Directory structure
- File system structure
- Allocation methods
- Free space management

Chapter 12

- Overview Of Mass-Storage Structure
- Disk Structure
- Disk arm Scheduling Algorithms
- Disk Management
- RAID Structure
