

Homework #0 :

A. Please submit an email to Mermelstein.homework@gmail.com answering the following questions:

1. Your full legal name (the name that appears on your BC official business)
2. The first name that you would like me to call you (even if this is the same as your legal name)
3. Your major (write undecided if you haven't declared yet)
4. Are you or have you taken precalculus? (Doesn't matter if the answer is no, but if not and you're a CS major, you should try to take it ASAP to make progress in the degree.)
5. Why are you taking this class? What drew you toward taking this class?
6. What would you would hope to learn in this class / what you hope to get out of this class?

What do you expect this class to be like? ("I'm taking this because it's part of my degree program" is a legitimate answer, but if you can give me a more detailed response, that would be even better.)
7. Any questions/ comments/ concerns that you have.

Please send your email to mermelstein.homework@gmail.com with the subject line:
1115— Your name
