

### Homework – Topic 1 – Print 1 to 100:

Write a program that prints the numbers from 1 to 100 with five values per line, two blank spaces between values. The last few lines will look like this:

```
...  
91 92 93 94 95  
96 97 98 99 100
```

#### Required Submission:

1. The Java source code file (e.g., HW1.java)
2. A file containing the output from the program (e.g. output.txt)
